

E-Commerce Solutions

Citynet offers a complete range of electronic commerce solutions, for everyone from small retailers to major producers. Citynet offers secure key technology for online credit-card transactions, shopping cart technology for product merchandising, and custom programming for wholesale and source-point distribution and sales.

Two-thirds of all Americans now have access to the Internet - that's more than 175 million people. That's the kind of customer base you can target with advanced e-commerce solutions from Citynet. You've seen the numbers, but have you seen them showing up in your bottom line?

Visit <http://demo.citynet.net/demosite> to check out Citynet's e-commerce demonstration Web site.

Contact Citynet Sales today at 1-800-903-8906 for more information and a demonstration of the web-based management tools.

This box displays a valuable tool; it is a very detailed form interface to better supply a more specific and accurate description of your products. It allows you, as the owner, to have complete control of how your product is represented to the public. In our experience, our clients have been very satisfied with our online e-commerce program and process.

Here is an example of the front end look. A picture and title always accompanies the price.
